The 2nd Dosan International Essay Contest

The 2nd Dosan International Essay Contest

Greetings!

It seems that people from around the world will live under the umbrella of Koreans for a while. The Korean Wave (Hallyu) and the remarkable technological prowess of Koreans have surprised the world. The world exists in infinite competition and nurturance. Who could have imagined that Japan, which had once dominated the world as an "economic animal," would decline like this? Nothing can last forever. We must also understand the rise and fall of history.

In 1963, the Hung Sa Dahn (Young Korean Academy (YKA), 흥사단: 興士團) experienced a second revival through the Youth Academy Movement. The Dosan Spirit became the driving force behind Korea's economic revival. Professor Ahn Byung-wook once said, "Becoming the top citizen and living as the true master in the land I am tilling is the true Dosan Spirit." We are now entering the era of eight million overseas Koreans. National development is achieving balanced growth across the board. This is like a miracle achieved 80 years from ruins.

To achieve proper and sustainable growth, we need excellent advice, proper moral values, and spiritual nourishment. We look to find that

path within the spirit and words of Dosan. It is because it is a truth that transcends time.

In this regard, the Young Korean Academy Orange County (YKA) and the Korean-American University Professors Association (KAUPA) are hosting the 2nd Dosan International Essay Contest (DOSAN 2023) under the theme "Diaspora of the Korean People and the Dosan Spirit" as part of the modernization and globalization of Dosan's ideology. The event is co-hosted by OC Heungsadan and KAUPA.

We kindly request your interest and active participation.
